

Safety Alert.

The 25mile event on 23rd june. Cycle live nottingham has a sportif on parts of the course on the same day. I have only found out about this last week and have sought advice on this matter. Our event will be going ahead as we dont envisage any serious problems and extra safety measures put in place. The riders will be spread out through out the day. I would like to remind everyone to follow the rules of the road. I will be placing extra marshals at the two areas where it converges you have right of way. Lets not take any undue risks i want everone going home in one piece. Check out <http://cyclelivenottingham.co.uk/ride/the-friar-tuck/> for the maps. The point of interest will be Harby village at around 21 mile and just before Langer at 35 mile on the maps.

Any questions just ask. Safe riding Nick Cousins
