

The Antelope Lugano Exiles Return (Bandit Bikes).

The Event to mark 25th Years since the "Lugano Charter" was signed

On the 8th October 1996 at Lake Lugano there was certainly "Smoke on the Water" as plans for exciting new bike designs were put into the incinerator. The UCI declared that the bicycle should be & only be the "classic diamond" design; also front & rear wheels should be the same size.

Therefore out went the Lotus, Hotta, Giant, Kirk & various other wonderful creations along with the Lo-Pro (funny) bikes. This event at Thruxton is to celebrate these machines that were "signed away to the wilderness" twenty five years ago. If you have any of these "outlawed" machines then surely this is the event to enter to mark the twenty five years when the "Lugano Charter" was signed.

The event will start approx 11:30 (*other Bandit Bike events are available*)
