I would like to thank all the riders who supported this event. I hope that personnel targets were achieved.

With all the extra precautions that have to be observed at the moment the event was a little strange but that aside I think it all went well. If any one is not convinced that the published time is correct that may be because your number could not be read at the finish even with the benefit of a finish cam.

A big thank you to the timekeepers Les Humphrey and Colin Derrick who stepped in at the last moment to save the abandonment of the event also to the club members who do all the other jobs Thank You.

To all the competitors who took the time to read and comply with the Covid 19 requirements to the others get reading.

A big thank you to David Norris Analytical Laboratories for their welcome assistance.
