U15 - Stouts Hill - Course Description

Starts by the electrical pylon shortly after the Stouts Hill Cotswold Holiday Resort entrance
The course lures you into a false sense of security with the flat section at the beginning
Don't worry... your pace will rapidly decrease as you hit the 13-15% gradient
There's a left and right hand bend before the long straight through the wooded section
This section has a consistent 11-12% gradient so settle into a good rhythm
Time will begin to slow as you get lost in your own world of hurt
Your mind will begin to shut-down to cope with the pain building in your legs and lungs
If you're still conscious near the top, you'll get to a sharp right bend followed by a sharp left bend
If you have any energy left at this point, you didn't go hard enough
When you get round the left hand bend, you'll see the finish line in sight
You'll attempt to sprint to the line only to find your legs can barely support your own body weight
The gradient eases up so you'll attempt to pick the pace up... good luck with that!
If you're lucky, this last section will go by quickly
The finish is when you pass by the 12% gradient sign on the left hand side
If you have any energy left, please shout your number and continue up the road
There is plenty of space to turn around further on
Good Luck!!
